

TfS wins CIPS Supply Management Award

Once a year, the Chartered Institute of Procurement & Supply (CIPS) gives special recognition to companies and initiatives in various categories. On September 12, the Together for Sustainability (TfS) initiative won the award for Third-Sector/Non-for-Profit Procurement Project.

CIPS, the Chartered Institute of Procurement and Supply, is a not-for-profit organisation, driving the global procurement and supply management profession. With a global community of over 200,000 members, CIPS is the world's largest organisation dedicated to the procurement and supply profession. The CIPS Supply Management Awards reward the most innovative, forward-thinking procurement teams and individuals in the profession.

On September 12, 2018, TfS won the award in the category Third-Sector/Non-for-Profit Procurement Project. "We are very proud to have received this recognition", TfS General Manager, Dr. Gabriele Unger delightedly comments on the award. "It confirms our shared TfS mission and encourages us to further work together and drive impact and sustainability improvements in the chemical supply chains worldwide."

The CIPS jury rewarded TfS for "an excellent joint initiative with clear results and engagement with the supply chain. The training programme and approach to improvement make it an inclusive initiative for suppliers".

About Together for Sustainability (TfS)

TfS AISBL is a joint initiative of chemical companies for sustainable supply chains. It was founded in 2011 to develop and implement a global program to assess, audit and improve sustainability practices within the supply chains of the chemical industry. Currently it has 21 member companies worldwide and intends to grow globally. TfS is a partner company of Cefic. The TfS Initiative strives to achieve mutual benefits for both its member companies and their suppliers. In doing so, social and environmental conditions are to be continuously improved for the benefit of all relevant stakeholders, including employees, neighbourhoods, local communities and society as a whole. TfS consists of an assessment and an audit process. TfS members can individually and independently apply these processes for their sustainable sourcing activities. <http://www.tfs-initiative.com/>
